

Processes are the building blocks of a company and its growth, but many companies struggle to write them down. To give businesses a better solution to manual documentation and screenshot capture we developed the Business Process Recorder. It records processes and creates step-by-step manuals automatically.

Benefits of BPR

Documentation

1. Create standard operating procedures (SOP's) automatically
2. Shorten the time needed to create those SOP's dramatically
3. Make it simple for the actual process owner to document
4. Centralize your processes in a digital format
5. Eliminate the risk of knowledge loss

Training

1. Accelerate creation of Training Manuals
2. Export to many common formats (Word, PowerPoint, PDF)
3. Ensure implementation of best practices

“ ABSOLUTELY ESSENTIAL TO PROVIDE STANDARDIZATION IN TRAINING ”
